

Date: June 16, 2008

Dear Tony,

Your donation of \$10,000 with an additional \$5,000 contra and becoming a GOLD sponsor shows valuable support of the Accor Race to Survive to Cure Kids 2008 and will go a very long way to ensure this amazing event will be as successful as the inaugural event held in 2006. Once again all teams will attempt to make it through 5 days of grueling competition over land and sea to ensure the second Accor Race to Survive to Cure Kids will be a huge success. However without the support of people and companies such as you this quite simply would not be possible.

As you are aware in 2006 we raised over \$250,000 and these funds have been used entirely for the health care of children in Fiji. We are aiming to pass this target this year, as we are all aware the need for the next generation of Fijians is an overwhelming one, however we can assure you that events such as this one, and support such as yours, goes a long way to making major improvements in this beautiful place of the pacific.

As we move closer to the actual event, it is also our aim to ensure you are thanked and rewarded for your generosity. The first stage of this is to ensure your company logo is loaded onto the Cure Kids Fiji website. Can I please ask that you forward me the logo you would like to nominate for the event and all associated marketing to me as soon as possible in both Jpeg and eps format. As soon as I receive this I will facilitate the work to begin.

It would also be appreciated if you could forward me the names and email address of anyone in your company who would like to receive updates on the event and Cure Kids Fiji.

To fully appreciate the emotion of the last event, here is a quote from one of the 72 competitors.

"We started as 12 teams 5 days ago, we finished as one united team for the kids of Fiji."

We are very proud and thankful to include Rosie Holidays as part of the Accor Race to Survive to Cure Kids 2008 team. Together we will achieve great things, and once again Vinaka Vakalevu for your support. We look forward to updating you every step of the way prior to and throughout the journey this year.

Regards

Murray Davison – One of many – Team Cure Kids.
